

Back to Homeschool Resources

The Spokane County Library District has free resources that help homeschooling parents develop lessons that match their children's unique interests, abilities, and learning styles.

In this homeschooling resource discussion, we will review helpful online resources, share library information and digital apps, and answer questions and help parents find what they and their students need to succeed this year.

Children are welcome to attend with their parents.

Tuesday, Sep 27	2–3pm	MEDICAL LAKE
